

ATALAY AŞA

iOS DEVELOPER

PROFILE

I love new technologies and I am always looking for interesting and challenging projects to work on. Always keen to learn more tricks from anyone - regardless of the business they are working in. I always try to develop and keep up-to-date myself by examining other projects to understand how other developers think and write the code.

WORK EXPERIENCE

iOS Developer

BİLGE ADAM IT SERVICES - ANKARA

2018 - Current

I am working as an outsourced iOS Developer at Ministry of Health for an application called EKIP. It is created for all Ministry of Health staff to carry out personal transactions related to them in electronic environment, voice-video calls, interactive training, social media cooperation and providing information to citizen portals.

iOS Developer

CYBERSOFT - ANKARA

2017 - 2018

I worked as an iOS Developer at Turkish Revenue Administration and developed three iOS applications which are called Hazir Beyan Sistemi, Performans Bilgi Sistemi and GIB.

INTERN

OMNITECHIT - ROMA

July 2016

I joined an internship program at Rome and had a training on IBM identity and access management products and configured these softwares on virtual machines.

INTERN

ETIYA - ANKARA

July 2015

During my intern as a business analyst in the company's CRM product, I created usage scenarios that fit the customer's business needs and prepared specific parts of the requirement document.

EDUCATION

MSc in Computer Forensics

ANKARA UNIVERSITY

2019 - Current

BSc in Computer Engineering

ANKARA YILDIRIM BEYAZIT UNIVERSITY

2012 - 2017
